Educators with a Career and Technical Education (CTE) focus, whether in a comprehensive high school or CTC environment, have specific perspectives and support needs. This collaborative aims to bring CTE educators together for support, resource sharing, and relevant professional development. While topics are listed below, note that content can be customized to participants’ needs.

Topics can include:
- Supporting special populations
  (students with academic, behavioral, and/or emotional needs, students from economically disadvantaged families, etc.)
- Classroom and laboratory management strategies
- Postsecondary readiness
  (technical credentials, education/training plans, etc.)
- Business and community engagement in CTE
- Additional topics as requested by participants
